## DIRECTIONS:

1. You now have all your pieces cut. Separate them into like colors & prints if they're not already. You then need to label the purple and blue colors separately with A-E. (i.e. you have five blues so label each blue print A-E. Then do the same for your purple pieces.)

**BLOCK A** – Every block is made up of one color except your center piece. You will make two sets of A Blocks. Use the diagrams I have drawn for you to see the five different layouts for Block A. The lettering in the diagrams refer to the prints you labeled in step one. One set will be all purple with blue centers, and the other set will be all blue with purple centers.

2. These blocks are simple Courthouse Step blocks with a skinny accent inside the block. For Courthouse Step blocks start with your center piece and sew strips to opposite sides. Your strips gradually get larger as you work your way out to the finished size. Follow the diagrams provided below to find the size of strips needed for each step, and the print of fabric shown in the diagrams on the next page.

**BLOCK B** – Every block is made up of one color except your center piece. You will make two sets of B Blocks. Use the diagrams I have drawn for you to see the five different layouts for Block B. One set will be all purple with blue centers, and the other set will be all blue with purple centers.

### FINISHING TOUCHES

4. By using the picture of the quilt sew together the blocks alternating the colors to make the quilt top
5. Sew the inner border on, starting on the longest side first.
6. Sew the outer border on, also starting on the longest side first.
7. Layer, quilt and bind as desired
